Disclaimer

I have no potential or actual conflict of interest related to this presentation.

Objectives

- Providing pediatric cancer pain management in a global setting.
- Discussing barriers in global health education.
- Exploring resources to improve global healthcare.

Pediatric cancer pain

- Pain is a major health problem.
- Cancer pain requires a multimodal approach.
- Pediatric cancer pain management has evolved recently.
- There is imbalance in global utilization of opioid analgesics.
- There is a need for training on innovative procedures to manage pain.
- My collaboration with Children's Cancer Hospital Egypt:
 - Providing lectures.
 - Organizing hands-on workshop for ultrasound-guided nerve blocks.
 - Participation in routine daily clinical work.
 - Offering mentorship residents and fellows in post-graduate education.

Barriers

- Language.
- Culture.

- Social.
- Economic.

Resources

- Fellowship programs.
- Exchange visits.
- Conferences and workshops.
- Telemedicine.
- African initiative.
