

A Guide to Using the 2016 NAFSA Regional Conference App

Download the app

Download the “2016 NAFSA Region Conference” app from the Apple App Store or Google Play Store. Once the app opens, select “2016 NAFSA Region 2 Conference.” To start using the app, select “Login” and enter your registration email address (username) and your registration confirmation # (password).

Use the app

Find the session or event you want and view details. If the session presentation has been uploaded, you can view the slides and use the note-taking mode to type your notes next to each slide. Please note that you will need an internet connection to download all slides but can later view them and take notes on them without one. Access/Print the notes you take by clicking “My Notes” on the main screen or “Online Personal Summary” in the sidebar menu. After each session, you can also fill out the session evaluation in the app.

...or use your laptop

If you don't have a mobile device that is able to download the app, you can use your laptop. As long as you have an internet connection, you can take notes on presentations through your laptop, or access slides following the conference on a laptop or desktop via the following website link:

<https://www.eventscribe.com/2016/NAFSARegionII>
If you already have an account on a mobile device, use the same account information that was emailed to you. Otherwise follow the steps to create an account.
