Score setting/minimum band score review on your campus

- Brief, targeted “needs” survey across the curriculum on campus with faculty who teach internationals, ESL professionals and international admissions professionals
 - *In my job, I sometimes have to decide whether or not to admit students and an English language test score (such as IELTS) may play an important part in these decisions. Yes/No*
 - *Is there a requirement for minimum scores in any skill area (e.g. an overall score of 7.0 with a minimum score of 6.5 for Reading)?*
 - *Under what conditions would you accept a student with scores below this level?*
 - *In my opinion the **overall** IELTS entry score should be ... lower/unchanged/higher/recommended score ____*
 - *In my opinion the **speaking** IELTS entry score for this course should be ... lower/unchanged/higher/recommended score ____*

Score setting (con't)

- Ask 3 key questions
 1. Is there language support on campus (and who pays)?
 2. What is the agreed **minimal** level of English proficiency to cope with the academic and social language demands?
 - what kinds of reading, writing, listening and speaking are involved in this context?
 - what level of proficiency is needed both in and outside the classroom?
 3. How does this minimally acceptable level of English translate into scores on the IELTS test?

Score setting

- Communicate the minimum score across the campus, list it on the website and in application materials for international students wherever you have English language proficiency listed
- Keep track of student academic success (e.g., first year grades, years to degree).
 - Adjust score up or down depending on student performance on your campus
- Higher minimums can be set dependent upon linguistic demand and needs of departments

- *has a good command of a broad range of language allowing themselves to express themselves clearly and appropriately*
