SEVIS II
Update

SEVIS Security!

Would you give your co-worker access to your bank accounts?

- On average, SEVP disables more than 10 accounts per year due to shared passwords. However, SEVP recently has seen a 50% increase in these cases.
- Password sharing is not only against regulations but it is also grounds for an investigation by the Security Operations Center.
- Password sharing can result in a loss of school certification.
- Password sharing can also create additional problems.
- **Only Authorized Users Should Access SEVIS.**

SEVIS II Transition, cont.

- **Transition**
 - The SEVIS II team will do the following:
 - ♦ Utilize information gleaned during the conference to develop a workbook that will be available to all schools
 - ♦ Host a series of webinars in 2012 that will enable all schools to provide feedback on the information presented
 - ♦ Incorporate this feedback in future training, communication and process initiatives

SRC Summary

- **SEVP Response Center (SRC)**
 - Timely and accurate customer service
 - Dedicated full-time representatives who understand SEVP operations and the school certification process
- **Goal**
 - To provide a single point of contact to program stakeholders for program inquiries
- **SRC History**
 - Began operations on January 26, 2009
 - 31,493 calls resolved (*as of March 31, 2011*)
 - 98% of inquiries resolved on initial call

Enhanced SRC (E-SRC)

- **Planned enhancements for the SRC**
 - Once implemented, the SRC will do the following:
 - ♦ Provide additional resources to directly answer policy and operational questions
 - ♦ Serve as a conduit to route technical questions to the SEVIS Help Desk
 - ♦ Expand its reach to provide support for SEVIS II system access requests
 - ♦ Provide assistance to students and proxies for accessing SEVIS II
