

## SEVIS Release 6.55 Final System Changes

October 14, 2020

**Production Release Date: October 16, 2020**

The following summarizes the final system changes to SEVIS Release 6.55.

### SEVIS Batch

An overview of the SEVIS Batch modifications with Release 6.55 can be found in the SEVIS Batch System Changes – Release 6.55 document on the SEVIS Batch page of ice.gov (<http://www.ice.gov/sevis/schools/sevis#tab1>). These changes are related to the implementation of:

- Revision the Classification of Instructional Programs (CIP) 2020

Additionally, the updated SEVIS Table and Create-Update Student schemas as well as the Release 6.55 Batch Application Program Interface (API) are also available on this page.

### CIP 2020 Codes

The Department of Education's National Center for Education Statistics (NCES) revises the CIP approximately every 10 years. The transition from CIP 2010 to CIP 2020 requires some changes and provides an opportunity for institutions to re-examine CIP code assignments and decide whether CIP 2020 offers new options that would be better matches for particular programs of study. After the implementation of SEVIS Release 6.55, SEVIS will only accept CIP codes that appear in the CIP 2020 list.

To accommodate this modification, the following Major/Minor Codes for Students and Subject/Field Codes for Exchange Visitors will be added.

#### Major/Minor Codes for Students and Subject/Field Codes for Exchange Visitors – Added CIP 2020 codes
