

NAFSA conducted an initial survey in April to better understand how the COVID-19 pandemic and the actions taken to mitigate its spread have impacted international education activities financially at U.S.-based higher education institutions. We shared that information with Congress, as part of our advocacy on behalf of the field for the economic stimulus packages. Now we are conducting a follow-up survey to gain an updated picture of the financial state of the field. Again, all information will remain confidential and only be used in aggregate.

We recognize that the full extent of the financial impact related to COVID-19 is still evolving, therefore you are encouraged to make estimations as best you can. We encourage you to coordinate one consolidated institutional response, where possible, if input from other offices and staff at your institution/organization is required to answer the survey.

This survey will take 20-25 minutes to complete. Responses are due no later than 5PM EDT September 22, 2020.
